HTML,   CSS,   JavaScript,   Bootstrap,   JQuery ,
Git,   Grunt,   Gulp,   Less,   Scss,
React Js (Currently Learning)

Professional Experience

NO PROFESSIONAL EXPERIENCE YET

- This is because I taught myself these skills purely online and the acquired certificates can be referenced in my LinkedIn account. Furthermore, I've got quite some on hand project experience of roughly twelve months coupled with the fact that I'm quite young and carry with me great potential.

Volunteer Experience

- Volunteered in a registrar of persons office, where I was tasked with receiving the Identification documents, scanning them, organizing them into a specific format and storing the data in a computer. This experience came with learning patience, versatility, persistence and being more mindful of others.
- Volunteered in sustainable development projects that were part of the Community Service Learning (CSL) curriculum, these activities boosted my creativity and allowed me to connect more with the environment.

Skills & Interests

Language: English (Fluent), Kiswahili(Fluent), French (Currently Learning).
Interests: Swimming, Chess, DeFi , Philosophy, Bike Riding
